FALL PLANTING,--we reiterate again this year,--FALL PLANTING is very successful and becoming more popular every year. We ourselves are going to do more this year than ever before. Most of us were caught this past spring with the short season and the scarcity of labor and consequently fall planting will be quite extensive. We issue a special pamphlet on our experience with fall planting of lining out evergreens. It is free for the asking.

Read the statement below about the seed situation. We are fortunate in being one of the few to have two year seedlings to sell. However, we had no seed for this year, and there is no domestic supply. Mugho Pine is going to skyrocket in value. Our stock is the genuine true dwarf type grown from imported seed. When the above supply of liners is gone there will be no more forthcoming, and the supply of finished Mugho right now is exhausted. Make yourself some money and plant some liners, but better cover your needs now!

I M P O R T A N T

The European situation has seriously affected the supply of Scotch pine, Austrian pine, Norway spruce and European Larch. It has completely cut off the supply of Mugho Pine seed as not a kernel of domestic seed is available. A little domestic seed of the other varieties can be had from old plantings in this country, but not anywhere near enough to fill our needs. You will note by our prices that we have not taken advantage of that situation, but will be glad to supply the trade as long as our supply holds out.

We have been headquarters for Am. Arbor Vitae for a long time. The trade looks to us for a positive supply of quality stock. Our Arbor Vitae are grown from seed selected by ourselves from specimen upland types. The general supply of Arbor Vitae is considered quite limited this year and the popularity of this item is again on the increase.

UNDERSTOCKS

Our understocks are all transplanted, exceptionally well rooted, straight and of just the right caliper 3/16"--1/4". Ask for samples.

THIS IS WHAT THEY WRITE US:--

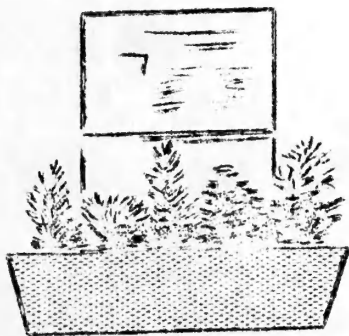

"Yes Sir! Your trees are the best stock you can buy anywhere, prices not even considered."

"I want to tell you that I am very well pleased with your trees. I have never had nicer trees and I have handled a great many.

Remember, when buying stock from us, you are getting material propagated and grown under vigorous climatic, and ideal soil conditions. Our soil produces a root system that just can't be beat.

— WINDOW BOX EVERGREENS —

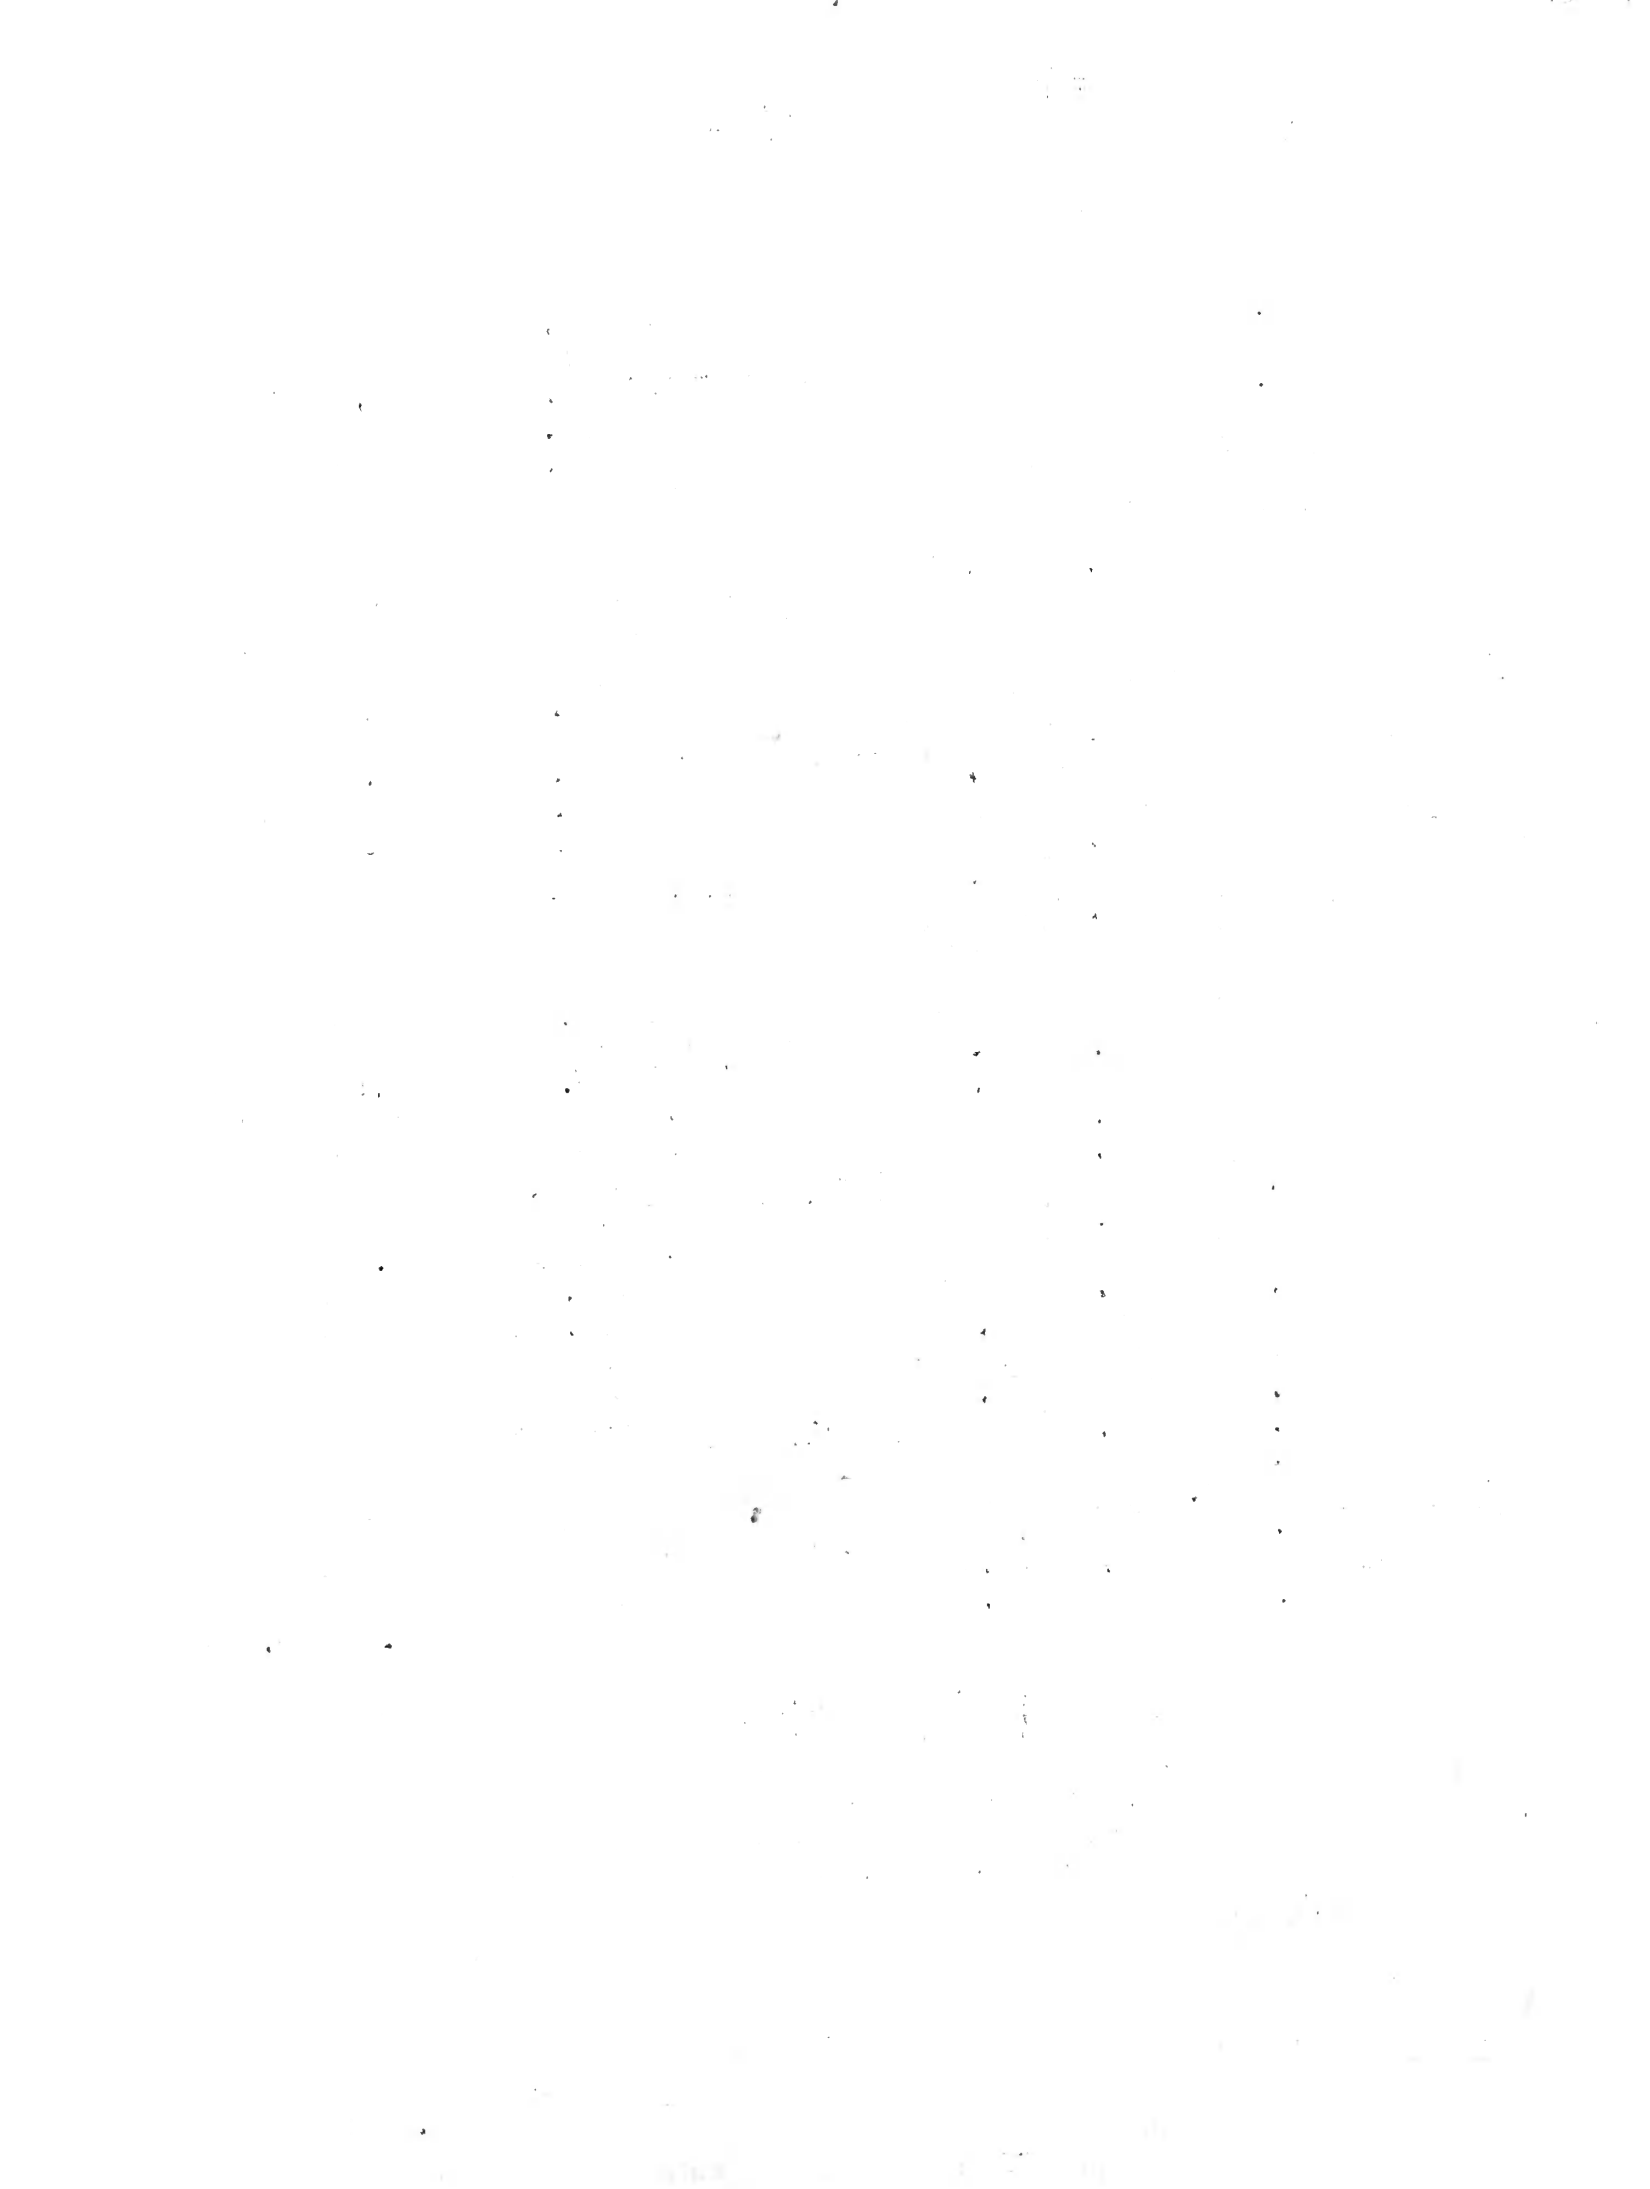

There is no reason for window boxes being drab and empty all winter. Cash in on this new market and sell your customers evergreens to put in their boxes. They last all winter, and if properly watered can be transplanted when spring arrives. Here is our special introductory offer:

Norway Spruce	1-1 $\frac{1}{4}$ ft.	\$15.00 per 100
White Spruce	1-1 $\frac{1}{4}$ ft.	16.00 per 100
Austrian Pine	1-1 $\frac{1}{4}$ ft.	18.00 per 100
Black Hills Spruce	1-1 $\frac{1}{4}$ ft.	20.00 per 100

These trees would all be selected for bushy types and it takes only a few trees to fill a box. Try some!
